THE WORLD OF ALCAR

ALCAR is an internationally active industrial and commercial group which places its strategic focus on steel and alloy wheels. The **ALCAR** Group is also the market leader in the European passenger car wheels aftermarket sector. The group's main business activities focus on wholesaling on national and international level, manufacturing steel and alloy wheels as well as distributing tyre pressure monitoring systems and fitted units.

ALCAR GOES FUTURE

E-MOBILITY AT ALCAR.

STRONG TRADE PARTNER FOR E-MOBILITY WITH THE BRANDS **AEZ** AND **DEZENT**

ALCAR is offering a comprehensive selection of rims for Generation E vehicles to workshops, tyre dealers and car dealerships. Looking for the right rim is easy now, thanks to a completely redesigned e-mobility category and filter function on the **ALCAR**, **AEZ** and **DEZENT** brands' digital web presences.

- ALCAR offers a wide range of products for 99% of all BEV, HEV, PHEV vehicles
- Choose from 76 designs from 14" to 22" for small cars to large luxury SUVs
- The majority are ABE and ECE solutions and therefore free of approval
- High availability and fast shipment all across Europe

As a rim manufacturer, ALCAR has been exploring the topic of e-vehicles for many years, having carried out numerous tests with concept designs in the past few years. From open five-spoke to strong Y-spoke designs – the devil's in the detail, every rim must match the respective car both technically and in terms of design. The challenge in the development is to find an optimum combination of all technical requirements in the individual designs.

The ALCAR e-mobility logo shows you exactly which wheels fit e-cars.

THE FUTURE OF TPMS
IS ALCAR

Tire Pressure Monitoring System

ALCAR

SENSOR

AEZ

ALCAR 3D CONFIGURATOR

Users get a complete overview of the matching rims, tyres, sensors and certificates. With the rim configurator from ALCAR everyone can try out countless combinations for their cars. From 14 to 22 inches, no wishes remain unfulfilled. Marvel at the mobile rim wardrobe with more than 1200 car models in highly realistic 3D display.

ALCAR E-COMMERCE

At ALCAR, competence in sales also stands for excellent technical solutions for our customers. Using high-tech ALCAR IT-Services enables customers not only to achieve better sales but also to organise their internal company processes in a much more efficient way.

ALCAR FITTED UNITS PORTAL

The online one-stop-shop solution where you can order "Everything for wheels". Wheels, tyres, sensors, parts – completely assembled and ready to mount. Simple. Fast. Inexpensive.

ALCAR WEBSHOP

ALCAR partners can choose from electronic purchasing solutions via ALCAR WEBSHOPS or XML data transfer as well as online sales solutions – such as fitted unit solutions and wheel configuration tools for the competent consultation of customers and consumers.

ALCAR LOGISTICS

The entire product range, high availability of our wheels, 24 to 72 hour delivery service within Europe as well as highest service quality and top-quality customer care by our individual distribution companies.

ALCAR SRC PAINT. THE PERFECT PROTECTION.

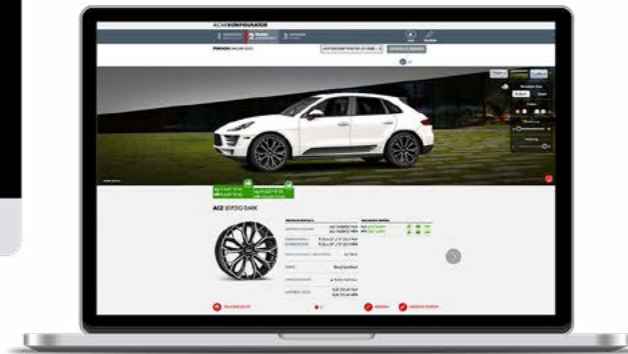

The high-quality and innovative SRC painting ensures that the wheels still look good even after years. The abbreviation stands for "salt & sun resistant" while the letter „C“ indicates the sealing coating.

ALCAR SENSOR TIRE PRESSURE MONITORING SYSTEM (TPMS)

Since November 1st 2014, the EU tyre pressure monitoring system directive has applied to all newly registered cars. All ALCAR wheels are prepared to accommodate the necessary wireless sensors (direct TPMS) and relevant information has been implemented in ALCAR information systems and are constantly updated. Since mid-2020 ALCAR offers a new and significantly improved product generation of sensors as well as diagnosis and programming tools.

ALCAR QUALITY

All wheels are regularly tested to ensure dimensional precision and material homogeneity during production. Additionally all wheels are checked for visible defects after production. All alloy wheels are examined by Germany's TÜV institute and certified to make sure that they are able to withstand highest levels of stress.

PREMIUM PFLEGEPRODUKTE FÜR IHRE RÄDER

Empfohlene Wiederverkaufspreise exkl. MWST.

DR. WACK

Premium-Pflege

P21S HIGH END

- der stärkste P21S aller Zeiten
- extrem schnelle Wirkung
- garantiert schonend und sicher
- entfernt selbsttätig hartnäckigen Schmutz

Art. Nr. 1230 / 750ml
CHF 32,50

P21S HIGH END

- der stärkste P21S aller Zeiten
- extrem schnelle Wirkung
- garantiert schonend und sicher
- entfernt selbsttätig hartnäckigen Schmutz

Art. Nr. 1235 / 2 Liter
CHF 56,00
